

To the FCC: Please do not stop XM Satellite Radio from broadcasting Instant Traffic and Weather. I enjoy the variety and the quality available on XM radio- this service is not available on other radio stations. Please reject NAB's petition 04-160. I pay for these services and I do not want the NAB telling me what I can listen to. The NAB seems to be afraid of some competition but that should not determine what I-as a citizen-am able to enjoy. The service and the quality of this XM station is not available anywhere else. Again, please reject the NAB's petition 04-160. Thank you---Diane Nast
